CAREER OBJECTIVE

Motivated B.Tech Computer Science Engineering student with hands-on experience in full-stack web development, RESTful APIs, and database-driven applications. Passionate about building scalable, user-friendly web applications using modern technologies. Seeking a Full Stack Developer internship or entry-level software development role where I can apply my technical skills, contribute to impactful projects, and continuously learn new technologies.

EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Computer Science Engineering

Bhopal
2023 – Present

- CGPA: 8.18/10

Jawahar Navodaya Vidyalaya

Higher Secondary Education

Palakkad
2023

- Percentage: 89.4%

Jawahar Navodaya Vidyalaya

Secondary Education

Palakkad
2021

- Percentage: 84.8%

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Frontend: HTML, CSS, JavaScript, React.js

Backend: Spring Boot, REST APIs, Apache Kafka

Testing: JUnit, Mockito, Postman

Databases: MySQL, MongoDB

Tools: Git, GitHub

PROJECTS

PairUp | *Real-Time Collaborative Coding Platform*

- Built a full-stack collaborative coding platform using React, Node.js, Express.js, MongoDB, and Socket.io for real-time collaborative programming.
- Implemented secure JWT authentication, bcrypt password encryption, protected routes, and role-based access control.
- Integrated Monaco Editor and E2B Sandbox to support multi-language code execution with live output and synchronized editing.
- Designed MongoDB schemas for coding sessions, chat, participants, and timers to support reliable real-time collaboration.

Cafe Management System | *Full-Stack Web Application*

- Developed a full-stack cafe management application using React, Spring Boot, MySQL, Spring Data JPA, and JWT authentication.
- Designed RESTful APIs for menu management, order processing, billing, user authentication, and inventory management.
- Built a responsive admin dashboard featuring sales analytics, order tracking, and low-stock notifications.
- Designed and managed a normalized MySQL database with 10+ relational tables for efficient and secure data management.
- Applied MVC architecture and clean coding practices to improve maintainability and scalability.

CERTIFICATIONS

- The Bits and Bytes of Computer Networking – Google
- ServiceNow System Administration Fundamentals
- NPTEL Introduction to Machine Learning – IIT Kharagpur
- NPTEL Marketing Analytics
